

Austrian scouts and guides welcome
you to their team!

If you are interested in international friendships,
exchange of ideas and scouting, please turn the
page for more information and contact us!

What are scouts and guides?

We are represented in almost every country on our planet and the biggest youth organization in the world. We are a democratic, non-denominational, international movement with the objective to educate towards peace. But not only children and youths are welcome, we are also very happy to see adults that share our values and want to engage as well!

What do we want to achieve with this call?

We would like to start a project for children and youths that had to flee the war in Ukraine to create a space for (new) friendships, games and togetherness. For this project we are looking for Ukrainian speaking scout leaders or educators who are ready to work with us and who would translate. It is our objective to connect children and youths but also adults that had to flee from their country with Austrian scouts as to create a strong community.

You are interested?

Then we would like to get to know you over a cup of tea or coffee! We would be very happy if you could contact us via E-mail, phone call, WhatsApp or social media message. We speak German, English, French and Luxembourgian.

We are looking forward to meeting you!
